1. Project Title

FurnitureHub - Modern Furniture E-Commerce Platform

FurnitureHub is a web-based furniture shopping platform that allows customers to browse, search, and purchase furniture products online.

2. Introduction

Furniture shopping is moving from traditional showrooms to digital platforms.

FurnitureHub provides customers with a modern online experience where they can:

- Browse furniture products
- Search products
- View details
- Add products to cart
- Place orders
- Track orders

The frontend focuses on clean UI, responsive design, and easy navigation

3. Problem Statement

Traditional furniture shopping often requires users to:

- Visit multiple stores
- Check product availability manually
- Compare prices physically
- Spend time traveling

FurnitureHub solves this by providing an organized online furniture marketplace.

4. Proposed Solution

FurnitureHub provides:

Search

Example:

Search furniture products...

Users can search:

- Sofa
- Chair
- Bed

- Table
- Storage Unit

Categories

- Sofas
- Beds
- Chairs
- Tables

Product Details

Each product contains:

- Image
- Product Name
- Price
- Category
- Description
- Rating
- Add To Cart Button

5. Objectives

Primary Objectives

1. Build professional furniture store website.
2. Display furniture products.
3. Implement search functionality.
4. Implement add-to-cart functionality.
5. Allow users to manage orders.
6. Create responsive design.
7. Provide user-friendly shopping experience.

Technical Objectives

- HTML
- CSS
- JavaScript
- ReactJS
- Bootstrap
- Routing
- Components
- State Management

6. Target Users

Customers

- Browse Products
- Search Products
- Add To Cart
- Place Orders
- Track Orders

7.Home Page

The homepage will be the first page users see. It can contain:

Navigation Bar

Furniture Store | Home | Categories | Orders | Contact

8. Shopping Cart

Cart Displays:

- Product Image
- Product Name
- Quantity
- Price
- Total Amount

9. About Us

FurnitureHub provides premium quality furniture products designed for comfort and style.

Values

- Quality
- Customer Satisfaction
- Affordability
- Innovation

10. Contact Page

Fields:

- Name
- Email
- Message

Contact Information:

- support@furniturehub.com
- +91 XXXXX XXXXX

11. Login Page

Fields:

- Email
- Password

Buttons:

- Login
- Forgot Password

12.Technology

Technology	Purpose
HTML	Structure
CSS	Styling
JavaScript	Functionality
Bootstrap	Responsive UI
ReactJS	Frontend Framework
React Router	Navigation

17. UI Design

Features:

- Modern Purple Theme
- Soft Shadows
- Rounded Cards
- Product Images
- Clean Typography
- Responsive Layout

Inspired by the furniture store screens you shared.

18. Final Result

The system provides:

✅ Home Page

✅ Product Categories

✅ Search Products

✅ Product Details

✅ Shopping Cart

✅ Login / Registration

✅ Orders Tracking

✅ Admin Dashboard

✅ Responsive Design

Conclusion

FurnitureHub is a modern furniture e-commerce platform designed to provide customers with a simple, convenient, and user-friendly online shopping experience. The system allows users to browse furniture products, search by category, view detailed product information, add items to the cart, place orders, and track their purchase

The project demonstrates the practical implementation of modern web development concepts such as responsive design, component-based architecture, product management, shopping cart functionality, and user interaction.
